

NH Marketing Dashboard

Google Ads API Design Document

Prepared by: Nationwide Haul | April 10, 2026

1. Company Overview

Company: Nationwide Haul | **Website:** nationwidehaul.com

Industry: Trucking, Transportation, Equipment Sales

MCC Account: 910-208-0388

2. Tool Description

Tool Name: NH Marketing Dashboard

Purpose: Internal read-only dashboard that aggregates Google Ads performance data across multiple company sub-accounts into one unified view.

Access Type: Read-only. No campaign modifications, bid changes, or account management actions are performed.

Users: Internal marketing team only (1-3 users). Not a third-party tool.

3. Sub-Accounts

Account Name	Customer ID	Division
NH - Equipment Sales	450-477-3990	Nationwide Haul
NFI Truck Sales	430-736-2539	NFI Truck Sales
NH - RV Service Shop	107-320-9892	NHTTR RV
NHTTR Service Shop	651-508-5474	NHTTR Truck Repair
Road Ready Insurance	186-641-6925	Road Ready Insurance

4. Technical Architecture

Stack: Next.js 15, Vercel, Google OAuth 2.0 via NextAuth.js v5

URL: <https://nh-marketing-theta.vercel.app>

API: Google Ads API v23 REST (searchStream endpoint)

5. API Usage

Endpoint: `googleads.googleapis.com/v23/customers/{id}/googleAds:searchStream`

Method: POST (read-only queries only)

Metrics: segments.date, metrics.cost_micros, metrics.clicks, metrics.impressions, metrics.ctr, metrics.conversions, metrics.cost_per_conversion

Volume: ~10-20 API calls/day (one per account per page load)

6. Data Handling

No Google Ads data is stored permanently. Data is fetched on-demand and displayed in the browser only. Client-side caching via SWR for session duration only.

7. Security

- Protected behind Google OAuth 2.0 authentication
- Only authorized employees can sign in
- All communication over HTTPS/TLS
- OAuth tokens in encrypted server-side JWT sessions
- No data shared with third parties

8. Compliance

This tool complies with all Google Ads API Terms of Service and Required Minimum Functionality policies. Used exclusively for internal reporting.
